**A journey within to the
Garden of Eden. (Guided meditation)**

The Souls Contracts

Before we re-incarnate we make arrangements with a great deal of other souls as to what we will experience during this life cycle.

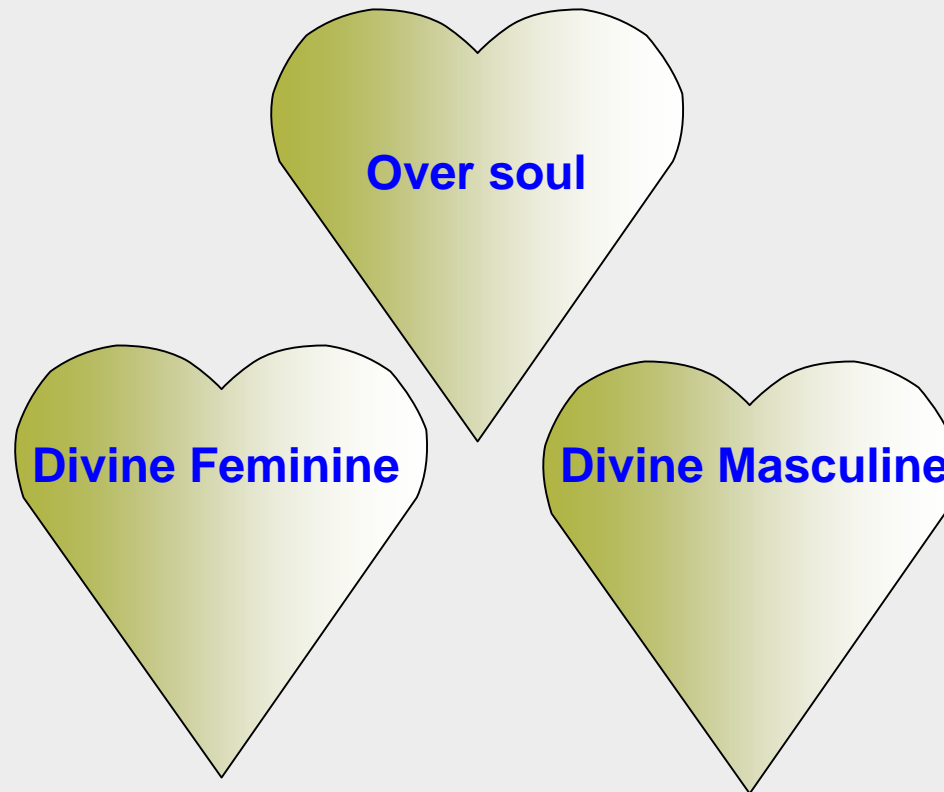

As you can see it is generally family etc or people who are involved throughout your life that will be the closest to you.

Subsequent rows might be school friends, colleagues, etc

The further away the row, the less those souls will be in your life.

There are even rows behind these which are shadowy and not yet visible, that is because they are yet to enter into your life (contract) with you.

The next and last step, before re-incarnation.
The souls journey to Earth.

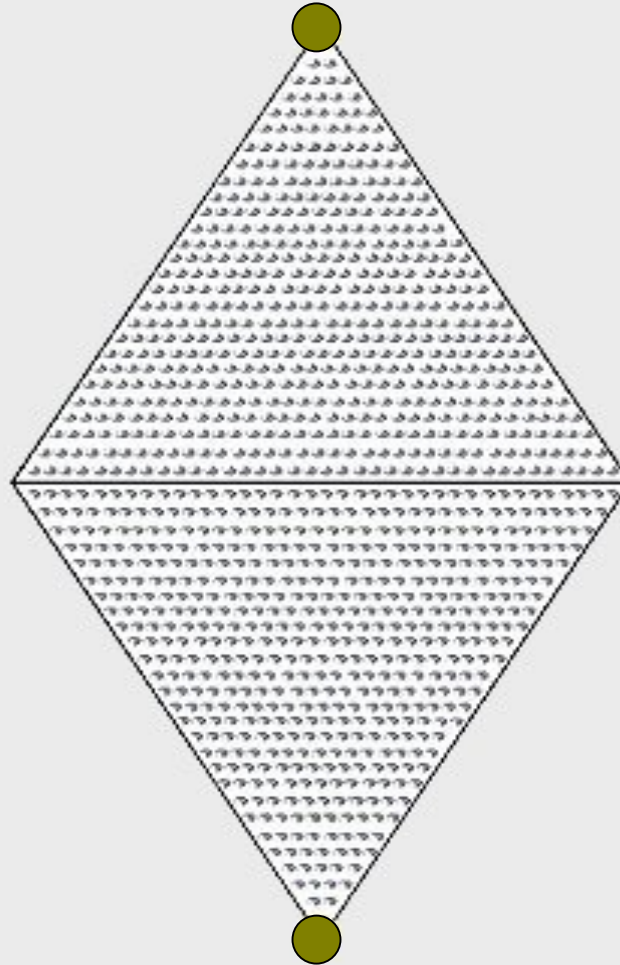

Having split into two halves in order to experience duality
behind the veils the soul is now ready to incarnate.

During the last half century or more, for the most part both
halves have incarnated within this life cycle.

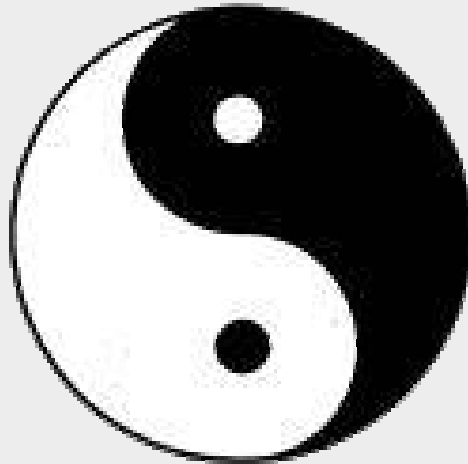

We will reveal the reason during this seminar.

In the Beginning there was “ONE”

In the end there will be “ONE” again.

The Symbol of Duality

I desire to draw my perfect mate to me!

Sit down, take your time, make notes. How would your perfect mate be?

PS: Careful now! You get what you ask for.

Soul Groups, Soul family, Soul Mates and the Twin Flame

On the end of each twig there are closely grouped leaves.

At the pinnacle there is always ONE leaf.

This leaf is always two halves of one PERFECT whole.

The Circle LIFE

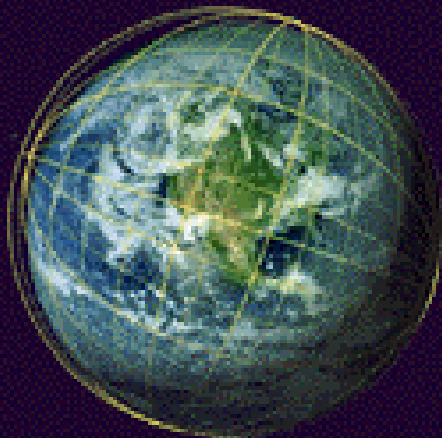

All of creation follows a pattern of an eternal circle.

Anything you put out to the universe as a thought or verbal communication enters the circle of life and is brought to you manifested.

We refer to life in all forms here, which also means life after death. This circle could also move what you know as KARMA into a new level of understanding.
